

Tena koutou, tena koutou, tena koutou katoa

Week 10 has come and gone and we are almost at the end of term 1. With only four days of school remaining, it feels like we are only getting started. We have really enjoyed seeing our student numbers increase every day this week. We reached our high yesterday with 86% of our students back at school and learning again. Thank you to all of the parents, caregivers and whanau who have got their children back to school. Next week we will be chasing up the remaining 14% to see why they are not attending school at present. We really want to get everyone back next week. Please help us to achieve that goal.

This week has been heavily focused on reconnecting with our students, reinforcing our school values (Respect, Personal Responsibility and Passion) and re-establishing our school rules and routines. In the classroom, the teachers have focused on rebuilding positive learning focused relationships with their students. Students are being challenged to remember their reading and writing e-asTTle levels and their stages in mathematics and to begin considering their next steps in these areas too.

Thank you to all the parents, caregivers, whanau and students that joined the OIS Community Zui this week on 'Understanding Your Child's Achievement while in Year 7 & 8'. The focus of the presentation was linking the New Zealand Curriculum, OIS assessment and how their results relate to where your child should be on their learning journey. Thanks to the participants who asked questions and those that acknowledged that it was helpful. We will be doing a similar presentation in term 2, closer to our mid-year reports to help you understand them better before student conferences. The zoom powerpoint presentation will be uploaded on to the Otahuhu Intermediate School website and facebook page next week.
